

Mobile short films on Ærø!

Visiting a summer café in 2013 in Ærøskøbing the idea was born for an open-air short film program for 2014: "It would be so nice if it was possible to watch short films on a warm summer evening. But the slogan should be: `Keep it simple!`"

The idea grew: filmmakers were contacted; movies had to be collected; a new website had to be developed and cooperation partners needed to be found. Meanwhile, the idea expanded to show the films also in cafes, restaurants, galleries or other places on Ærø - even throughout the whole year.

And everybody who wants to become a cooperation partner for the film screenings or for sponsorship in 2014 and 2015 is very welcome! Because there is no lack of new short films!

Next screenings are ready to start! Film makers from the island are also invited to bring spontaneously their own short film on DVD to the screening (max. 20 minutes).
